Subject: Re: Update on meeting with West Latham Neighborhood Association and Summit at Forts Ferry Project Team

Date: Mon, Sep 24, 2018 8:17 am

Dear Ms. Slevin,

We appreciate your response, but it is very disappointing that you and the Summit team are not meeting the commitment that was made back in July to have a follow-up meeting to discuss options for additional buffering. At this point, we'll assume the next time we will receive an update is at a TOC Planning Board meeting.

Sincerely,

West Latham Neighborhood Association Officers

Erich Smith, President

John Drake, Vice President

Mary Cox, Secretary

Rosanne Van Heertum, Treasurer

Good evening,

Updated plans are still being developed. AS indicated previously, the plans include all technical aspects of the Project design, which requires addressing all engineering issues simultaneously. AS you requested, careful attention has been given to these aspects of the Project to insure it follows applicable standards. Whether another meeting will be set up is not certain at this time given the level of analysis that has been dedicated to addressing comments to date.

Dear Ms. Slevin,

Thank you for your quick response on August 16. Just checking in to see if there are updated plans, or at least a target date on when we would be able to meet again to review what options are being considered, and understand what will be recommended, based upon the positives and negatives of each option. Our understanding is that we would have a chance to meet with the project team for a follow-up discussion before the project is submitted to the Planning Board for final approval, so we wanted to confirm that you have the same understanding.
